1st March 2018

**16th Congress of the International Menopause Society
Vancouver, Canada, 6-9th June 2018**

The Henry Burger Prize

On behalf of the Scientific Programme Committee for the 16th Congress of the International Menopause Society, and the Henry Burger prize judging panel, we are delighted to inform you that you are the winning recipient of the Henry Burger prize. This award is given to the investigator who is judged as having published the most significant contributions to the field of menopause in basic science or clinical studies in the previous five years of a World Congress.

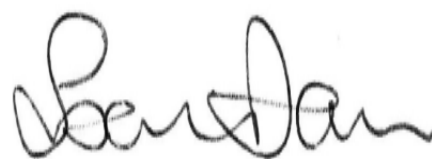

As the awardee we invite you to give a 15 minute summary of your major research contribution over the last five years. As the **Henry Burger Oration**, your presentation within the scientific programme of this Congress, will take place on the opening day of the congress, Wednesday 6th June 2018, 16.10-16.25, in the Pacific Hall.

We know you are already planning to attend the congress and will speak at the EMAS symposium, but we would like to offer you a contribution to your costs ie a complimentary registration to the congress, hotel accommodation for three nights in a congress hotel, and a contribution to air travel. Participation in the social programme will also include a personal invitation to the President's dinner to be held on Friday 9th June.

All logistical arrangements will be handled for you by our agency for the congress, Biomedical Technologies. We very much hope you are able to accept this invitation and look forward to confirmation of your willingness to attend by 14th March 2018, sent to our Executive Director, Lee Tomkins at leetomkinsims@btinternet.com
